RE: REQUEST FOR ADMINISTRATIVE  
APPROVAL TO CONVERT W. H. RHODES  
"B" (NCT-1) WELLS NO. 16, 17 &  
19 TO INJECTION, DATED 7-15-77

New Mexico Oil Conservation Commission  
P. O. Box 2088  
Santa Fe, New Mexico 87501

ATTENTION: MR. JOE D. RAMEY  
SECRETARY-DIRECTOR

Gentlemen:

As per Mr. Jerry Sexton's request of July 23, 1977, we are transmitting diagrammatic sketches of the following wells which are to be converted to water injection in the Rhodes Cooperative Waterflood:

W. H. Rhodes "B" NCT-1 No. 16  
W. H. Rhodes "B" NCT-1 No. 17  
W. H. Rhodes "B" NCT-1 No. 19

Water injection will be into the Rhodes Yates Reservoir between the depths of 3130' and 3182'. Anticipated injection volume is 500 barrels per day per well. Injection water will be made up of produced formation water from the Rhodes Cooperative Waterflood project and fresh water from supply wells in the Ogallala formation in the area.

Very truly yours,

*J V Gannon*  
J. V. Gannon  
District Superintendent
