

10. Restoration of Surface:

Pits will be backfilled and leveled as soon as practical to original condition. Commencement of rehabilitation operations will immediately follow removal of drilling and completion equipment from the location. Prior to rig release, pits will be fenced and so maintained until cleanup.

11. Other Information:

- A. Terrain: Low rolling sand hills, see Exhibit "A", topographic map of the area.
- B. Soil: Very sandy.
- C. Vegetation: Sparse vegetation, being mostly grass, wood, shinnery and other semi desert plants with sparse grass and small weeds.
- D. Surface Use: Grazing.
- E. Ponds and Streams: No surface water within $\frac{1}{2}$ mile.
- F. Water wells: None within $\frac{1}{2}$ mile.
- G. Residences and Buildings: None within $\frac{1}{2}$ mile.
- H. Arroyos, Canyons, Etc.: Outside of low rolling hills, there are no surface features within $\frac{1}{2}$ mile.
- I. Well Sign: Sign identifying and locating well will be maintained at drill site with the spudding of the well.
- J. Open Pits: All pits containing mud or other liquids will be fenced.
- K. Archeological Resources: None observed.

12. Operators Representative:

Field personnel who can be contacted concerning compliance of this Surface Use Plan are as follows:

Production & Drilling
 Darrell Brown
 1860 Lincoln Street, Suite 1200
 Denver, Colorado 80295
 Office phone: (303) 292-9920 #254
 Home phone: (303) 771-8297

13. Certification:

I hereby certify that I, or persons under my direct supervision, have inspected the proposed drill site and access route; that I am familiar with the conditions as they actually exist; that the statements made in this plan are, to the best of my knowledge, true and correct; and that the proposed work performed by Tenneco Oil Company and its contractors and sub-contractors will conform to this plan.
