Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Since the original completion of the subject well in 1977, the production rate has exhibit a steady decline. Therefore, in an effort to improve the well's future profitability, we propose performing the following well work:

1. Pull rods and tubing.
2. Perforate Yates interval from 2968-3020.
3. Set retrievable BP above present completion interval at a total depth of 3075'.
4. A/4000 and SWF/30,000 + 40,000.
5. After cleaning well up, pull retrievable BP.
6. Return well to production from overall producing interval between 2968-3279.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
