

SURFACE USE PLAN
Continental Oil Company, Vaughn B-1 No. 7
1980' FNL and 660' FEL of Section 1, T-24S, R-36E
Lease LC030467(B), Lea County, NM

This plan is to accompany "Application for Permit to Drill" the subject well which is located approximately thirteen miles southwest of Eunice, New Mexico. The following is a discussion of pertinent information concerning possible effects which the proposed drilling of the well may have on the environment of the well and roadsites and surrounding acreage. A copy will be posted on the derrick floor so that all contractors and sub-contractors will be aware of all items of this plan.

1. Existing Roads

- A. The proposed well site is 1980' FNL and 660' FEL of Section 1, T-24S, R-36E, Lea County, New Mexico.
- B. Exhibit "A" is a portion of a New Mexico road map showing existing black top roads. Directions to the location from Eunice, New Mexico are as follows:

From the Conoco station in Eunice, go south on Loop 18 until you come to Highway 18. Travel south on it 7 miles until you reach El Paso No. 4 plant; turn west on paved road and travel .5 mile west through cattleguard; turn back south through another cattleguard, go .2 mile, then turn back west and travel .9 of a mile. Turn south, travel .1 mile and you will run into road to location. This road is staked.

- C, D, E. The access roads are shown on Exhibits "B" and "C".
- F. No improvement or maintenance is anticipated for the existing roads.

2. Planned Access Roads

- A. Width and Length: New road required will be 12' wide and 400' long. This new road is labeled and color coded on Exhibits "B" and "C" (staked).
- B. Turnouts: None.
- C. Drainage Design: New road will have a drop of 6" from center line on each side.
- D. Culverts, Cuts and Fills: None.
- E. Surfacing Material: Six inches of caliche; bladed, watered and compacted.
- F. Gates, Cattleguards, Fences: None required.
- G. The proposed road is staked.
