13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We plan to carry this well in temporary abandonment status for future use as a producing well in a comprehensive waterflood program. We are in earnest search for a partner-operator to fund and implement a full waterflood program on this lease. It has large reserves, oil and gas, and is worthy of substantial and well-engineered development, far beyond our resources. We hope to find this qualified partner in the near future. We intend to set a mechanical bridge plug 50' above the top perforation, seal the casing with corrosion inhibited fluid, pressure test to 500 lbs PSI and hold for 30 minutes within two weeks after approval is granted.

14. I hereby certify that the foregoing is true and correct
