INSTRUCTIONS

General: This form is designed for submitting a complete and correct well completion report and log on all type of lands and is to be submitted to either a Federal or State office, pursuant to applicable Federal and/or State laws and regulations. Any necessary special instructions concerning the form of this form are submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the Federal or State office. See instructions on items 22 and 24, and 33, below regarding separate reports for separate completions. If not filed prior to the time this summary record is submitted, copies of all currently available logs (drillers, geologists' sample and core logs, geologists' logs, and pressure tests, and directional surveys, should be attached hereto, to the extent required by applicable Federal and/or State law and/or regulation. Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Item 18: Indicate which elevation is used as reference (where not otherwise shown) for depth measurements taken at other places on this form. Item 22 and 24: If this well is completed for separate production from more than one interval zone (multiple completion), so state in item 22, and for each interval, or intervals, top(s), bottom(s) and name(s) (if any) for only the interval reported in item 33. Submit a separate report (log) for each additional interval to be separately produced, showing the additional data pertinent to such interval. Item 29: "Sacks Cement": Attached supplemental records for this well should show the details of any multiple stage cementing and the location of the cement. Item 33: Submit a separate completion report on this form for each interval to be separately produced. (See instruction for item 22 and 24 above.)

37. SUMMARY OF POROUS ZONES: SHOW ALL IMPORTANT ZONES OF POROSITY AND CONTENTS THEREOF; CORED INTERVALS; AND ALL DRILL-STEM TESTS, INCLUDING DEPTH INTERVAL TESTED, CUSHION USED, TIME TOOL OPEN, FLOWING AND SHUT-IN PRESSURES, AND RECOVERIES
