Due to economic conditions these wells have been suspended from production. The suspension expires May 31, 1989. Yates Petroleum Corporation would like to continue the wells in suspension and ask for your approval.

1. The lease is in its extended term.
2. Both Ed Powell IG Federal wells are stripper wells and low producers.
3. All wells on the lease have been plugged and abandoned.
4. The wells are capable of producing in paying quantities, but failure to suspend the production could lead to premature abandonment.
5. The last date of production was April 30, 1987. The production was 1 BO for 4 days of production.
6. Both wells produce into a common tank battery.

18. I hereby certify that the foregoing is true and correct
