

## MULTI-POINT SURFACE USE AND OPERATIONS PLAN

Texaco Inc.

Rhodes-Yates Unit No. 13  
660' FSL & 660' FWL SEC. 27  
T-26-S R-37-E  
Lea Co., New Mexico

This plan is submitted with the Application for Permit to Drill the above listed well. The purpose of this plan is to describe the location of the proposed wells, the proposed construction activities and operations plan, the magnitude of necessary surface disturbance involved, and the procedures to be followed in rehabilitating the surface after completion of the operation so that a complete appraisal can be made of the environmental effects associated with the operation.

### 1. Existing Roads

- A. Exhibit "A" is a portion of the Lea County road map showing this location as staked.
- B. This well location can be reached by going south on State Highway No. 18 from its intersection with State Highway No. 128 in Jal, New Mexico for 6.9 miles, turn right (or West) across railroad and cattle guard for 0.1 mile, turn left (or South) on caliche lease road for 0.7 miles, turn 45° to the right (or Southwest) on caliche lease road for 0.3 miles, turn 45° to the right (or West) on caliche lease road 0.5 miles to a point:
- C. Access road to this well is described as follows:
  - 1. From point in "B" above a new road will be built South for 0.25 miles, then left (or East) for 0.1 mile to location of Rhodes-Yates Unit No. 13
- D. All existing roads within one mile or shown on exhibit "B".

### 2. Planned Access Roads:

- A. All new roads will be 12 feet wide and covered with 6" of watered and compacted caliche. This new road is colorcoded and shown on Exhibit "B". The centerline of each road has been staked and flagged.
