RE: Glenn-Ryan #17
Unit L, Sec. 14, T26S, R37E
Rhodes Yates SR Gas Pool

Gentlemen:

A review of our records for the above-referenced well show that it is operated by United Gas Search Inc. Any reports should be filed under that company name or if you are the new operator of this well you should file a change of operator with us on Form C-104.

A copy of your request to the BLM for the reclassification of the above-referenced well from a gas well to an oil well has been received. This well is in the Rhodes Yates SR Gas Pool and this pool does not require GOR testing so there would be no need to reclassify this well to an oil well. You also indicate the well has been producing liquids since October 1992, but a review of your monthly production reports do not reflect any liquid production. You should continue to report the well in the Rhodes Yates SR Gas Pool and any liquids produced should be reported. Since the well is now producing liquids you should file a C-104 designating a transporter for the liquids.

Very truly yours,

OIL CONSERVATION DIVISION
