13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Gas production has greatly diminished. Well was put on pump in October, 1992. In March, 1993, the well produced 18 barrels of oil with 90 to 100 mcf/g over a two day period. This well has made some oil consistently since October, 1992. This notice is to reclassify gas well as a Yates oil well.

14. I hereby certify that the foregoing is true and correct
