13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

In addition to the value of this well as an injector in the waterflood being planned, it may have potential as a Yates-Seven Rivers gas producer. A large expenditure in opening and fracing the Yates was unproductive, we believe, because of a flawed frac procedure. We wish to keep our options open on this well until the GR 5 and 10 have been fraced in the Yates. By May 1, 1996 we will either undertake a re-frac or qualify the casing for injector use.

14. I hereby certify that the foregoing is true and correct
