If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Continued TA status is requested. We commissioned a reserves/engineering study, which recommends a redevelopment program capable of yielding well over one million barrels of oil plus substantial associated gas. We lack funds to do this, and are searching for a customer or funding partner to do it. The collapse of oil prices destroyed our former plans, and plugging now would further burden our search.
