

NEW MEXICO OIL CONSERVATION COMMISSION
WELL LOCATION AND ACREAGE DEDICATION PLAT

Form C-102
Supersedes C-128
Effective 1-1-65

All distances must be from the outer boundaries of the Section.

Operator The Superior Oil Company			Lease Sims		Well No. 1
Unit Letter H	Section 13	Township 24 South	Range 33 East	County Lea	
Actual Footage Location of Well: 1980 feet from the North line and 800 feet from the East line					
Ground Level Elev. 3580.3'	Producing Formation Morrow	Pool South Bell Lake		Dedicated Acreage: 320 Acres	

1. Outline the acreage dedicated to the subject well by colored pencil or hachure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

☒ Yes ☐ No If answer is "yes," type of consolidation Communitization

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.)

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.

None

Pooling Provision for Leases No. 1-4:

Lessee is hereby granted the right to pool or unitize this lease, the land covered by it or any part thereof with any other land, lease, leases, mineral estates or parts thereof for the production of oil, liquid hydrocarbons and all gases and their respective constituent products, or any of them, such pooling to be into a unit or units not exceeding 40 acres in the event of an oil well, or into a unit or units not exceeding 640 acres each in the event of a gas well, plus a tolerance of ten percent (10%) thereof, provided that if any Federal or State law, Executive order, rule or regulation shall prescribe a spacing pattern for the development of the field or allocate a producing allowable on acreage per well, then any such units may embrace as much additional acreage as may be so prescribed or as may be used in such allocation or allowable. The term "gas well" as used in this paragraph shall be deemed to include wells producing, or capable of producing, natural gas, gas condensate, gas distillate or any gaseous substance, as said terms, or any of them are commonly understood in the oil and gas industry, or as they may be used by any governmental authority. Lessee shall file written unit designations in the county in which the premises are located. Such units may be designated either before or after the completion of wells. Drilling operations and production on any part of the pooled acreage shall be treated as if such drilling operations were upon or such production was from the land described in this lease whether the well or wells be located on the land covered by this lease or not. The entire acreage pooled into a unit shall be treated for all purposes, except the payment of royalties on production from the pooled unit, as if it were included in this lease. In lieu of the royalties herein provided, lessor shall receive on production from a unit so pooled only such portion of the royalty stipulated herein as the amount of his acreage placed in the unit or his royalty interest therein on an acreage basis bears to the total acreage so pooled in the particular unit involved.

No. 5
