Gentlemen:

On August 15, 1980, this office approved a Notice of Intent to Drill for Gifford, Mitchell & Wisenbaker for a well to be drilled 1980 feet from the north line and 660 feet from the east line of Section 28, T-26-S, R-36-E, Lea County, New Mexico. Although the well was never drilled, the location was built, and a recent inspection indicated that it has not been levelled and that the pit and cellar are open.

Since you have acquired this lease from GMW Corporation, we are requesting your cooperation in having this location levelled to meet our requirements. Please advise as to your intent in this regard.

Yours very truly,

OIL CONSERVATION DIVISION
