17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

On April 9, 1986 at 10:00 am MST the subject well was shut in at the request of The New Energy Company who currently purchases the gas. The New Energy Company has stated that they are ceasing their operations due to economic conditions. Pogo will therefore attempt to find a new gas market. The updated status of this well will therefore be shut in waiting on gas pipeline. A copy of the letter from New Energy is attached for your reference.
