RE: STATE NNG, #2  
UNIT M, S16, T26S, R32E

Gentlemen:

A recent inspection was made on the above referenced plugged well site, by an OCD representative, in an attempt to release the location.

However, the location cannot be released until the following work has been done.

1. Remove pump jack from location.
2. Pit needs to be filled and/or levelled.
3. Anchors need to be removed from location.
4. Remove all junk and equipment from location.

Please inform this office when these procedures have been completed by signing the bottom portion of this letter and return it to our office at the above address.

Very truly yours,

  
JERRY SEXTON  
District I Supervisor
