Sec. 18, T23S, R37E  
Multiple Completion -- Jalmat-T/Y/SR & Langlie Mattix SR/Qn/GB

Gentlemen:

The above-referenced well is a dual completion and as such a packer leakage test is required. Since we do not have a test on file for this well, one should be submitted as soon as possible and annually thereafter.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
