RE: VACA RIDGE 30 FEDERAL #1, UNIT K, S30-T24S-R34E

Gentlemen:

An Oil Conservation Representative recently witnessed a bradenhead test on the above salt water disposal well.

As a result of the test, the test showed the well is injecting over the approved limit. Please curtail the injection pressure to conform to the approved limits.

If you wish to apply for an increase in pressure limit, please apply through the Santa Fe District office.

Enclosed, find a copy of the test sheet for your information.

Sincerely,

A handwritten signature in cursive script that reads "Chris Williams".

CHRIS WILLIAMS
District I Supervisor
