OIL CONSERVATION COMM.
HOBBS, N. M.

NEW MEXICO OIL CONSERVATION COMMISSION
WELL LOCATION AND ACREAGE DEDICATION PLAT

Form C-102
Supersedes C-128
Effective 1-1-65

All distances must be from the outer boundaries of the Section

Operator Ralph E. Williamson		Lease Wright Federal		Well No. 1
Section B	Range 27	Township 24 South	Range 32 East	County Lea
Acres of land in well: 660 feet from the North line and 1980 feet from the East line				
Producing Formation 3578.2	Producing Formation Delaware Sand	Pool UNDENGINATED	Dedicated Acreage: 40 Acres	

- Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.
- If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty)
- If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

☒ Yes ☐ No If answer is "yes," type of consolidation Only one lease involved

If answer is "no," list the owners and tract descriptions which have actually been consolidated (Use reverse side of this form if necessary.)

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.

FEL & 660' FNL of Sec. 27,
T-24S, R-32E, Lea County,
New Mexico

Gentlemen:

As per instructions for submitting an application to drill an offshore or on shore gas, oil or geothermal wells on public domain and acquired lands, Ralph E. Williamson answers these questions as follows:

1. Existing Roads: Exhibit "B", attached, shows existing roads in solid red lines.
2. Planned Access Roads: Planned access roads are shown on Exhibit "B" as dashed red lines.
3. Location of Well: As shown on above reference.
4. Lateral Roads to Location: None
5. Location of Tank Battery and Flow Lines: If the above well is productive, surface equipment will be set on location site.
6. Location and Types of Water Lines: Water to be hauled.
7. Methods for Handling Waster Deposits: A reserve pit located as per Exhibit "C" will be used for handling all wastes.
8. Location of Camps: None
9. Location of Air Strip: None

Letter to:
U. S. G. S.

December 6, 1974

Page No. 2

10. Position of the Rig, Mud Tank, Reserve Pit, Pipe Racks, and etc.: See Exhibit "C"
11. Plans for Restoration of the Surface: After drilling the well, Ralph E. Williamson will level all pits and location as near to original ground level as possible. This location is located in an arid region on which there is no surface grass.
12. Blowout Preventor Diagram: See Exhibit "D"

Should you have any questions concerning any of the above, please do not hesitate to call or write.

Yours very truly,

Ralph E. Williamson
