Re: Rattlesnake Gulch 25 St #1-J, Sec 25, T24S.. R33E

Gentlemen:

An inspection of the above plugged well location shows gas bubbling up into the cellar.

The situation indicates the possibility that the gas is coming from the tubing which has been left in the hole.

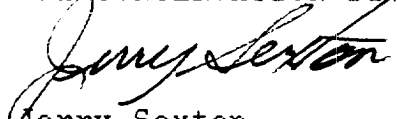

It is necessary that you drill out the plugs until the source of the gas is located and the problem corrected.

We request that you make arrangements to start on the procedures as soon as possible.

We request 24 hours prior notice in order to witness the operation.

Very truly yours

OIL CONSERVATION DIVISION

  
Jerry Sexton  
Supervisor, District I
