Re: HCW Exploration, Inc.
George Etz #6 Well
Sec. 27, T23S, R36E
Lea Co., New Mexico
Jalmat (Yates-7 Rivers) Pool

Dear Sirs:

Please find enclosed NMOCD Forms C-104, C-105, Inclination Report, and Dual Spaced Neutron log on the above referenced well. HCW Exploration, Inc. requests that information on this well be kept confidential for the 90 day period allowed by the NMOCD. HCW Exploration, Inc. obtained a Force Pool order from the NMOCD in Santa Fe for this well to drill a Jalmat (Gas) Pool well. As it turns out the well came in initially as qualifying as an oil well. HCW then contacted our attorney in Santa Fe to determine what should be done about our Force Pool order for an oil well. The attorney talked to the NMOCD in Santa Fe about this situation. The time involved investigating the Force Pool order situation is what caused the delay in filing these completion papers within the 20 day period from completion date. Should you have any questions, please contact the undersigned.

Very truly yours,

A handwritten signature in cursive script that reads "Steve A. Douglas".
