- ☐ Change of Plans
☐ New Construction
☐ Non-Routine Fracturing
☐ Water Shut-Off
☐ Conversion to Injection
☐ Dispose Water

Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Well was recompleted from Cline Drinkard Abo - CIBP was set to plug off Drinkard Abo and recomplete to Blinebry/Tubb in 12/94. Well was perforated in Blinebry from 5695-5732', no production was incurred. Well was perforated from 6191-6232' in the Tubb and completion report with test was filed on 12-21-94. The packer which was set at 6090' has been pulled and well is producing from the Tubb perforations @ 6191-6232'.

Sundry notice filed 12-5-94 listed the perforations from 5695-5732' as Cline Drinkard Abo - this was incorrect and should have been reported as the Cline; Blinebry.

14. I hereby certify that the foregoing is true and correct.
