13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Request additional extension of drilling permit of ninety days (90 days).

The original drilling permit expired February 26, 1993 and an extension of ninety days was granted on March 9, 1993.

Because of a change in working interest owners, there has been a delay in financial arrangements to drill. However, everything is coming together now and we will be able to drill in the near future.

Thank you for your cooperation in this matter.
