13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Yates Petroleum Corporation requests permission to vent gas indefinitely from the Arapaho "AKP" Federal #1 well. The Arapaho "AKP" #1 is the only well producing into the battery. The well produces ± 20 BOPD and 15 mcfgpd or less. The nearest gas gathering facility is Phillips Petroleum located approximately 9000' from the Arapaho location. The estimated cost of construction and connection would be \$75,000.00. At a rate of \$1.00/mcf, the estimated payout time would be 12 years and is uneconomical.
