Attention: Mr. Michael E. Stogner, Hearings Examiner

Re: Application of OXY USA Inc. for Unorthodox Location Approval for Wells No. 70, 71, 72, 73, & 74; Skelly Penrose "B" Unit, Langlie Mattix Pool, Lea County, New Mexico

Dear Mike:

OXY USA Inc. respectfully requests approval under statewide rule 104 (F) to drill and produce the subject wells at unorthodox locations. Attached are the C-102 forms for each of the wells, as well as a plat showing the Penrose "B" Unit and the locations of the subject wells therein. These locations are necessary to permit the completion of more efficient patterns within our Penrose "B" secondary recovery unit.

Under Rule 104 (F), we request that the Division approve the unorthodox locations for these wells without notice and hearing because they are not located any closer than 330 feet to the outer boundary of the unit, nor are they closer than 10 feet to any quarter-quarter section line.

If you have any questions relating to this application please call me at 915/685-5913. Thank you for considering our application.

Sincerely,

Richard E. Foppiano

Regulatory Affairs Advisor Western Region - Midland
