Re: Application of OXY USA Inc. for Permits to Drill Wells No. 70, 71, 72, 73, & 74; Skelly Penrose "B" Unit, Langlie Mattix Pool, Lea County, New Mexico

Dear Donna:

Please attached a plat showing the Penrose "B" Unit and the locations of the subject wells therein. These locations are necessary to permit the completion of a more efficient pattern within our Penrose "B" secondary recovery unit.

Under Rule 104 (F), we request that the Division approve the unorthodox locations for these wells without notice and hearing because they are not located any closer than 330 feet to the outer boundary of the unit, nor are the locations closer than 10 feet to any quarter-quarter section line.

If you have any questions relating to this application please call me at 915/685-5913 or Scott Gengler at 915/685-5825. Thank you for considering our application.

Sincerely,

Richard E. Foppiano
