

No. 10755
No. R-9949
No. 2

- Eaves "A" Well No. 20
2570 feet from the North line and 3538 feet from the East line (approximately 1758' FWL), Unit F of Section 19; and
- Eaves "B" Well No. 20
1414 feet from the South line and 429 feet from the East line, Unit I, of Section 30.

(3) The Eaves "A" Lease comprising Lots 1 through 4, SE/4 NW/4, E/2 SW/4, 1/4 SE/4 and S/2 SE/4 of said Section 19 and Lot 1, N/2 NE/4 and NE/4 NW/4 of said Section 30 is within the Scarborough Eaves Pressure Maintenance Project Area authorized Division Order No. R-3487-A, dated September 8, 1969.

(4) The proposed Eaves "A" Well Nos, 18, 19 and 20 are to be drilled for the purpose of completing an efficient production/injection pattern within said pressure maintenance project area, which should result in the recovery of otherwise unrecoverable

(5) The proposed Eaves "B" Well No. 20 is an area of primary development only. The 40-acre tract comprising the NE/4 SE/4 of said Section 30 of which said well is to be located is currently committed to the applicant's Eaves "B" Well No. 7, located at a standard oil well location 1980 feet from the South line and 660 feet from the East line of said Section 30. The No. 7 well is presently shut-in; however, was originally completed as a well in the Yates-Seven Rivers interval in 1963 and produced until being shut-in in December 1986. The immediate 40-acre tract to the south being the SE/4 SE/4 of said Section 30 is presently dedicated to the applicant's Eaves "B-1" Well No. 8, located at a standard oil well location 660 feet from the South line and 330 feet from the East line (Unit I) of said Section 30. This well was also completed in the Yates-Seven Rivers zone as an oil well in 1963.

(6) The applicant presented evidence which indicates a well drilled at the proposed unorthodox location between the No. 7 and No. 8 wells would be capable of recovering additional reserves that might not otherwise be recovered, thereby preventing

(7) No offset operator or interested party objected to the proposed unorthodox well locations.

(8) Approval of this application is in the best interests of conservation.
