- ☐ Abandonment
☐ Recompletion
☐ Plugging Back
☐ Casing Repair
☐ Altering Casing
☒ Other Correct Field Name &
- ☐ Change of Plans
☐ New Construction
☐ Non-Routine Fracturing
☐ Water Shut-Off
☐ Conversion to Injection
☐ Dispose Water

PRODUCING FORMATION

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We respectfully request that the Field Name and producing formation be corrected for the above referenced well. Form 3160-4 (Well Completion Report) was filed by Enron Oil and Gas Company on September 3, 1994, and indicated the well was completed as Undesignated (Delaware) with perforations 8532'-8550'. It has been determined by the NMOCD in Hobbs, New Mexico, that the correct Field Name and formation for this well is Mesa Verde (Bone Spring).

A request for surface commingling of the two producing wells on this lease will follow.

ACCEPTED FOR FILING
7 1995
SJS

14. I hereby certify that the foregoing is true and correct
