Gentlemen:

On the delay of processing the C-104 on the above well. A call was made to David on 8/31/95 for the deviation survey and the back of the completion paper work. This paper work was never received. The paper work all needs to come along with the C-104 for us to approve and assign an allowable.

On March 4, 1996 we received the Federal completion form and processed the C-104, but we still have not received the deviation survey. When paper work does not come we call. We are sorry for the inconvenience, but this puts an inconvenience on us too when we do not receive the paper work on a timely bases.

We request at this time that you send us the required deviation survey for this well. If you have any questions on this matter, please call the District I, Hobbs office (505) 393-6161.

Yours very truly,

OIL CONSERVATION DIVISION
