13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Page 4 of the APD filed May 8, 1996 states "Hydrogen sulfide is not expected to be encountered with this well". This should read "Hydrogen sulfide may be encountered in this well". A complete safety plan has been submitted to the BLM for other recently drilled wells in this half-section, i.e. the Eva E. Blinebry #21. The same Hydrogen Sulfide Drilling plan will be implemented and a copy of the plan will be on location while drilling this well.

14. I hereby certify that the foregoing is true and correct
