RE: Administrative application of Gruy Petroleum Management Company for a location exception (application reference No. pKRV0-120152765) filed with the New Mexico Oil Conservation Division ("Division") on July 20, 2001 for its Myers "B" Well No. 8 (API No. 30-025-34768) located at an unorthodox infill Jalmat gas well location 2260 feet from the North line and 2310 feet from the East line (Unit G) of Section 11, Township 24 South, Range 36 East, NMPM, Jalmat Gas Pool, Lea County, New Mexico, and for simultaneous dedication of gas production from two wells within a non-standard 120-acre gas spacing and proration unit (application pending the Division's administrative review process) comprising the N/2 NE/4 of Section 11.

Dear Mr. Farris:

The Division is in receipt of an objection from Lewis B. Burleson, Inc. to the location of Gruy's aforementioned Myers "B" Well No. 8, see copy of letter attached.

This application will therefore be set for hearing before a Division Hearing Examiner on the next available docket scheduled for September 6, 2001. I have prepared the following advertisement in this matter:

"Application of Gruy Petroleum Management Company for an unorthodox infill gas well location and simultaneous dedication, Lea County, New Mexico. Applicant seeks an exception to the well location requirements provided within the "Special Rules and Regulations for the Jalmat Gas Pool", as promulgated by Division Order No. R-8170, as amended, for an unorthodox Jalmat infill gas well location for its recently drilled Myers "B" Well No. 8 (API No. 30-025-34768) located 2260 feet from the North line and 2310 feet from the East line (Unit G) of Section 11, Township 24 South, Range 36 East. Further, the applicant, pursuant to the rules governing the Jalmat Gas Pool and the amended Stipulated Declaratory Judgement issued by the First Judicial District Court in Santa Fe County, New Mexico on July 11, 2001, seeks to simultaneously dedicate Jalmat gas production from the above-described Myers "B" Well No. 8 and its Myers "B" Well No. 6 (API No. 30-025-31382), located at a standard gas well location 660 feet from the North and East lines (Unit A) of Section 11, to a non-standard 120-acre gas spacing and proration unit (application pending before the Division's administrative review process) comprising the N/2 NE/4 of Section 11. This unit is located approximately 14.5 miles south-southwest of Eunice, New Mexico".
