

ENERGEN RESOURCES CORPORATION

LANGLIE LYNN QUEEN UNIT #21 2,130' FNL & 657' FWL SECTION-26, TOWNSHIP-23-S, RANGE-36-E LEA COUNTY, NEW MEXICO

*** SURFACE USE AND OPERATIONS PLAN ***

1. EXISTING ROADS:

- (A) Access to location will be made as shown on Exhibit #2.
- (B) Routine grading and maintenance of existing roads will be conducted as necessary to maintain their condition as long as any operations continue on this lease.

2. PROPOSED ACCESS ROAD:

- (A) 225' of new road is required as shown on Exhibit 2-A.
- (B) No turnouts will be necessary.
- (C) No culverts, cattleguards, gates, or low-water crossings will be necessary.
- (D) Surfacing material for the road & location will consist of native caliche which will be obtained from the nearest pit. Any additional materials required for construction will be purchased from the dirt contractor.

3. LOCATION OF EXISTING WELLS:

Exhibit #3 shows all existing wells within a one-mile radius of this well.

4. LOCATION OF EXISTING AND/OR PROPOSED FACILITIES:

There are existing production facilities on this lease. After production is encountered, it will be necessary to lay a flowline to these facilities, which are located approximately 1/2 mile north in Section 23.

5. LOCATION AND TYPE OF WATER SUPPLY:

Water for the drilling & completion of this well will be purchased from commercial sources and transported to the wellsite over the roads as shown on Exhibit #2.
