II. DRILLING / SITING (continued)

Casing, tubing, and cementing record (please attach copy)*

Note: If a copy is not available detail casing record on back of this sheet using the following format. Include brand or type of cement if known.

From	To	Size of Hole	Size of Casing	Weight per Foot	Sacks of Cement	Estimated Top of cmt.
------	----	-----------------	-------------------	--------------------	--------------------	--------------------------

Was mudcake on bore wall removed before cementing production casing? _____

Was salt saturated cementing material used opposite salt formation? _____

Is site within 1/2 mile of another well? If so, use note to explain. _____

See attached plate, _____

Site preparation (concrete pad, graded dirt, pit, etc) _____

Type of surface seal or well-head (locking security cap, welded, etc.) _____

Comments (include problems encountered while drilling, loss of circulation, deviation of hole from vertical, centralizers used, tools lost or stuck, fracturing techniques used, etc.) After 7" casing was cemented by circulating cement to surface, salt was dissolved out, to form a storage volume of 50,000 bbls, by circulating fresh water in and brine out of the well.

(use back of sheet if more space is required)
