13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

3-M Energy requests that the E. F. Ray #6 be placed in a temporarily abandoned status. Texaco has initiated its waterflood and it is possible this well will be placed into production or into an injection status. We are waiting to see the effects of the Texaco waterflood.

We will conduct a mechanical integrity test by tying on the well with kill truck - pressure up to 500# and hold pressure for 15 minutes. We will perform this test during the week of March 7th, 1994. The actual date of the test is March 10, 1994.
