1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research.

2. The second part of the report is a detailed description of the methodology used in the study. It includes information about the sample size, the data collection methods, and the statistical analysis techniques.

3. The third part of the report is a presentation of the results of the study. It includes tables, figures, and text describing the findings.

4. The fourth part of the report is a discussion of the results and their implications. It includes a comparison of the results with previous studies and a discussion of the limitations of the study.

5. The fifth part of the report is a conclusion and a list of references.

The results of the study show that there is a significant difference between the two groups.

The data indicate that the first group performed better than the second group.

The results of the study are consistent with the findings of previous research.

The study was conducted in a controlled environment.

The results of the study are presented in the following table.

The data were collected from a random sample of the population.

The study was approved by the ethics committee.
