RE: Change of Operator
G.E. Jordan (NCT-1) #19
Unit H, Sec. 29, T25S, R32E

Gentlemen:

We have received Form C-104 for a change of operator for the above-referenced well. You did not complete the line where the former operator name is to be shown, so we are returning the form to you in order that you may furnish this information.

We have had a difficult time trying to identify this well with the description given on the C-104. After checking with the BLM I believe this well is the former, Texaco Exploration & Production Inc. Cotton Draw Unit #58. If this is the case, you will need to show this as a change of operator, change of lease name and change of well number.

The location of the Cotton Draw Unit #58 is 1980/N and 330/E -- not 330/S and 330/E as you have shown on your C-104. Please correct this information.

Also, the API number for the Cotton Draw Unit #58 is: 30-025-08237 -- not 300259909800S1 as you have shown on C-104.

Please correct the above items and return the C-104 to us for approval. If you have any questions, please contact Evelyn Downs at 595-393-6161.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry sexton
Supervisor, District I

ed

P.S. If the above is correct, you will need to request the BLM to correct the API number for this well in their data base. This can be done by submitting a sundry notice to BLM office requesting this correction.
