 The elevation of the derrick floor above sea level is 3376 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Loaded hole with 11# mud, placed 25 sack cement plug 5450-5525'; placed 25 sack cement plug 3775-3850'; placed 25 sack cement plug 1185-1260'. Spotted 18 sacks cement from 50' to surface and placed a 4" pipe marker. Well plugged and abandon.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

 Company Phillips Petroleum Company
