Well No. 1 is located 600 ft. from N line and 660 ft. from E line of sec. 26
SE 1/4 of SE 1/4 of Sec. 26 25-S 35-E N.M.P.M.
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Wilcoat Lea New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 3116 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudlogging jobs, cementing points, and all other important proposed work)

This hole was drilled to total depth of 6055' by General American Oil Company, as Operator, having cemented therein 370' of 13-3/8" and 5072' of 9-5/8" casing, who have now designated Sun Oil Company as Operator, by instrument attached. Sun Oil Company expects to drill this hole to a possible total depth of 13,500' and cement a string of 5-1/2" casing to any sand or sands which might be found productive of oil or gas between the present and the proposed total depth.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
