New Mexico Oil Conservation Commission,
Hobbs, N.M.

Attention Mr. Roy O Yarbrough

Gentlemen:

We are again submitting Form C-101, as an application to drill our Winters C-1 as an oil well only.

For your information this proposed location, an offset north from our Winters B-2, which has only recently been completed as a flowing oil well with a very low gas oil ratio. We believe this location is to our advantage from a geological standpoint for a commercial oil well.

We respectfully request your consideration in this matter and ask for your approval.

Very truly yours,

NOV 8 - 1950
RALPH LOWE
