DETAILS OF PLAN OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work.)

We propose to make the following change in our casing program for the drilling of the above well, which was approved by your office of Jan'y 29, 1935. Instead of the casing as shown on our application we propose to run the following casing in this well.

12 1/2" casing set at 100' cemented to surface.

8-5/8" O.D. Casing to be set at about 1600' and cemented with 600 sacks on top of main salt beds.

5-1/2" Casing Oil string to be set at about 3275' cemented with 400 sacks on top of oil pay.

The well is to be completed with a reasonable gas-oil-ratio.
