

New Mexico State Land Office  
Santa Fe, New Mexico.  
Department of the State Geologist

NOTICE OF INTENTION TO TEST WATER SHUT-OFF

Notice must be given to the State Geologist or to the proper Oil and Gas Inspector at least five days before the test. It is desirable that a representative of the Department of the State Geologist witness the water shut-off before drilling into the productive sand whenever possible. If changes in the proposed plan are considered advisable, a copy of this notice showing such changes will be returned to sender. Submit this notice in triplicate.

Wink, Texas. July 13, 1934.

Mr. T. A. Stancliff,  
State Geologist,  
Santa Fe, New Mexico.

Dear Sir:

You are hereby notified that we intend to test the shut-off of water in E. C. Stephens "A" Well No. 1 in NW/4 of Sec. 13, T. 25S, R. 36E, N. M. P. M., Jal Oil Field Lea County, on May 14, 1934, 10" 45 lb. casing was cemented in Salt formation at a depth of 1363 feet on June 11, 1934 600 sacks of El Tercio cement was used.

The method used in placing the cement was as follows:

Halliburton Oil Well Cementing Company.

Fluid level will be bailed to a depth of (pressure test of casing by pump) feet and left undisturbed for at least 12 hours before your inspection.

Adjacent property owners have been notified as follows:
