Additional information:

We wish to replace the two 500 bbl. wood tanks now serving as a battery on our Martha Forrist lease with two 100 bbl. steel bolted tanks. This change is desirable both on account of the wood tanks being ready for overhauling and the fact that the production now from this lease can be taken care of with more satisfaction with smaller tanks.

This oil is run by The Texas-New Mexico Pipe Line Company, Wink, Texas.

Yours truly,

Permission is hereby granted to make pipe line connections requested above.
