Re: Ascarte C-24 #1-B 24-25-36  
Ascarte D-24 #1-J 24-25-36  
Jalmat Pool  
NSP-1508 (W/2 E/2 Sec. 24, T25S, R36E)

Gentlemen:

We have received a copy of NSP-1508 covering a 160-acre proration unit in the Jalmat pool to be simultaneously dedicated to the above-referenced wells. Ascarte C-24 #1-B currently has an allowable. However, if Ascarte D-24 #1-J is to be returned to production under NSP-1508, you will need to submit a revised acreage dedication plat, Form C-102, for each well, spotting both wells on each plat.

Also, it will be necessary to submit another C-104 showing your gas transporter for the Ascarte D-24 #1-J since our records show it has been disconnected from El Paso. We will also need a reconnection notice from the gas transporter.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
Supervisor, District I
