NOTICE OF INTENTION TO SHOOT	SUPPLEMENTARY WELL HISTORY

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

July 8, 1935.

Following is a {notice of intention to do work} on land under {permit} described as follows:

New Mexico Lea County Jal
(State or Territory) (County or Subdivision) (Field)
Well No. 1-A NE 1/4 Sec. 24, 36 S., 36 E., T1N1
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)

The well is located 660 ft. N of line and 3820 ft. E of line of sec. 24

The elevation of the derrick floor above sea level is 5234 ft.

DETAILS OF PLAN OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work.)

Inasmuch that it is generally conceded that both water and oil are in the same pay horizon, and that other operators have attempted to shut off water unsuccessfully in this field, it is felt that no present known method can successfully separate the oil and water, we therefore do not plan to do any remedial work on this well at the present time.

Approved July 19, 1935
