November 16, 1933, 192

Following is a {notice of intention to do work} on land under {permit} described as follows:  
~~{report of work done}~~  
~~{lease}~~

New Mexico                      Lea County                      J&L  
(State or Territory)                      (County or Subdivision)                      (Field)

Well No. One                      NEL NW 1/4 Sec. 24, Twp. 25 S. Rge. 36 E. N. W. P. M.  
(1/4 Sec. and Sec. No.)                      (Twp.)                      (Range)                      (Meridian)

The well is located 660 ft. N of N line and 1980 ft. E of W line of sec. 24The elevation of the derrick floor above sea level is 3120 ft.

## DETAILS OF PLAN OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work.)

Submitted to show elevation of derrick floor. Change plan to set 9" 34 pound pipe instead of 9-5/8" 36 pound pipe at 2850. We find that this makes a stronger casing job, and find also that the use of 9-5/8" pipe is becoming obsolete.

Approved November 17, 1933
