Lubbock, Texas

O
Attention: Mr. A. E. Brown

Gentlemen:

P
We have received Form C-103 covering work performed on your Brown No. 1-F, Section 25, T-25-S, R-36-F, indicating that the well is now a gas well. Before this well can be produced as a gas well, it will be necessary that you file Commission Form C-116 which will be used to officially classify the well as a gas well in the Jalmat Gas Pool.

Before an allowable can be assigned this well it will be necessary that this office have a Notice of Connection and after the connection is obtained it will be necessary that a deliverability test be taken on the well. Also, in the event that less than 640 acres is dedicated to the well a Non-Standard Proration Unit Order will have to be obtained.

Y
As soon as this well is officially classified as a gas well, the provisions noted on your Form C-101 for Brown No. 4 will automatically be deleted.

If we can be of further assistance in this matter, please advise.

Yours very truly,

OIL CONSERVATION COMMISSION

Joe D. Ramey
Proration Manager
