	DETAILS OF THE
names of and expected depths	DETAILS OF WORK to objective sends; show sizes, weights, and lengths of proposed cealings. It
names of and expected depths	DETAILS OF WORK to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, casing points, and all other important proposed work)
names of and expected depths	DETAILS OF WORK to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, casing points, and all other important proposed work)
names of and expected depths	DETAILS OF WORK to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, casing points, and all other important proposed work)
names of and expected depths	DETAILS OF WORK to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, casing points, and all other important proposed work)
names of and expected depths left to total depth unional in any se	DETAILS OF WORK to objective sends; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, our ing points, and all other important proposed work) h of 5919. No oil or gas in commercial quantities no Propose to plug to abandon as follows.
names of and expected depths left to total depth unional in any se	DETAILS OF WORK to objective sends; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, our ing points, and all other important proposed work) h of 5919. No oil or gas in commercial quantities no Propose to plug to abandon as follows.
names of and expected depths led to total depth unitered in any ser fill balls to first	DETAILS OF WORK to objective sends; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, our ing points, and all other important proposed work) h of 5919. No oil or gas in commercial quantities no. Propose to plug to shandon as follows:
hames of and expected depths led to total depth microf in any nos fill hale to 5000	DETAILS OF WORK to objective sends; show sizes, weights, and lengths of proposed easings; indicate mudding jobs, one ing points, and all other important proposed work) h of 5919. No oil or gas in commercial quantities no. Propose to plug to changes as follows:
names of and expected depths left to total depth unioned in any nes fill bulks to 5000 fill bulks to 5000	DETAILS OF WORK to objective sends; show sizes, weights, and lengths of proposed easings; indicate mudding jobs, one ing points, and all other important proposed work) h of 5919. No oil or gas in commercial quantities no. Propose to plug to changes as follows:
had to total depti microf in any ser fill hade to 5000 fill hade to 5000 fill hade to 5000	DETAILS OF WORK to objective sends; show sizes, weights, and lengths of proposed easings; indicate mudding jobs, car ing points, and all other important proposed work) h of 5919. No oil or gas in commercial quantities has Propose to plug to changes as follows: O' with heavy and then spot 50 sacks count at 5000. O' with heavy and then spot 50 sacks count at 5000.
had to total depti microf in any ser fill hade to 5000 fill hade to 5000 fill hade to 5000	DETAILS OF WORK to objective sends; show sizes, weights, and lengths of proposed easings; indicate mudding jobs, car ing points, and all other important proposed work) h of 5919. No oil or gas in commercial quantities has Propose to plug to changes as follows: O' with heavy and then spot 50 sacks count at 5000. O' with heavy and then spot 50 sacks count at 5000.
had to total depti- microf in any ser fill hele to 5000 fill hele to 5000 fill hele to 3500 fill hele to 3500	DETAILS OF WORK to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, casing points, and all other important proposed work) the off 5919. He off or gas in commercial quantities mae. Propose to plug to abandon as follows: Of with heavy and then spot 50 sacks count at 5000. Of with heavy and then spot 50 sacks count at 5000.
had to total depti- microf in any ser fill hele to 5000 fill hele to 5000 fill hele to 3500 fill hele to 3500	DETAILS OF WORK to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, casing points, and all other important proposed work) the off 5919. He off or gas in commercial quantities mae. Propose to plug to abandon as follows: Of with heavy and then spot 50 sacks count at 5000. Of with heavy and then spot 50 sacks count at 5000.
names of and expected depths led to total depth microid in any ner fill hele to 5000 fill hele to 3500 fill hele to 3200 fill hele to 3200 fill hele to 3200	DETAILS OF WORK to objective sands; show sizes, weights, and lengths of proposed easings; indicate mudding jobs, our ing points, and all other important proposed work) h of 5919. No cil or gas in commercial quantities no. Propose to plug to abandon as follows: O' with heavy and then spot 50 sacks examt at 5000'. O' with heavy and then spot 50 sacks examt at 5000'. O' with heavy and then spot 50 sacks examt at 5000'. O' with heavy and then spot 50 sacks examt at 5000'.
names of and expected depths led to total depth microid in any ner fill hele to 5000 fill hele to 3500 fill hele to 3200 fill hele to 3200 fill hele to 3200	DETAILS OF WORK to objective sands; show sizes, weights, and lengths of proposed easings; indicate mudding jobs, our ing points, and all other important proposed work) h of 5919. No cil or gas in commercial quantities no. Propose to plug to abandon as follows: O' with heavy and then spot 50 sacks examt at 5000'. O' with heavy and then spot 50 sacks examt at 5000'. O' with heavy and then spot 50 sacks examt at 5000'. O' with heavy and then spot 50 sacks examt at 5000'.
names of and expected depths led to total depth microd in any ses fill hele to 5000 fill hele to 3500 fill hele to 3200 fill hele to 3300 fill hele to 3300 fill hele to 3300 fill hele to 3300	DETAILS OF WORK to objective sends; show sizes, weights, and lengths of proposed easings; indicate mudding jobs, our ing points, and all other important proposed work) the f 5919'. We call or gas in commercial quantities the Propose to plug to abandon as follows: O' with heavy and then spot 50 sacks equant at 5000'. O' with heavy and then spot 50 sacks equant at 3000'. O' with heavy and then spot 50 sacks equant at 3500'. O' with heavy and then spot 50 sacks equant at 3500'.
had to total depth micros in any ser fill hele to 5000 fill hele to 5000 fill hele to 3500 fill hele to 3500 fill hele to 3500 fill hele to 3500 fill hele to 3500	DETAILS OF WORK to objective sends; show sizes, weights, and lengths of proposed easings; indicate mudding jobs, our ing points, and all other important proposed work) the f 5919'. We call or gas in commercial quantities the Propose to plug to abandon as follows: O' with heavy and then spot 50 sacks equant at 5000'. O' with heavy and then spot 50 sacks equant at 3000'. O' with heavy and then spot 50 sacks equant at 3500'. O' with heavy and then spot 50 sacks equant at 3500'.
had to total depth micros in any no fill hele to 5000 fill hele to 3500 fill hele to 3500	DETAILS OF WORK to objective sends; show sizes, weights, and lengths of proposed easings; indicate mudding jobs, our ing points, and all other important proposed work) the f 5919'. We call or gas in commercial quantities the Propose to plug to abandon as follows: O' with heavy and then spot 50 sacks equant at 5000'. O' with heavy and then spot 50 sacks equant at 3000'. O' with heavy and then spot 50 sacks equant at 3500'. O' with heavy and then spot 50 sacks equant at 3500'.
had to total depth micros in any no fill hele to 5000 fill hele to 3500 fill hele to 3500	DETAILS OF WORK to objective sends; show sizes, weights, and lengths of proposed easings; indicate mudding jobs, our ing points, and all other important proposed work) the f 5919'. We call or gas in commercial quantities the Propose to plug to abandon as follows: O' with heavy and then spot 50 sacks equant at 5000'. O' with heavy and then spot 50 sacks equant at 3000'. O' with heavy and then spot 50 sacks equant at 3500'. O' with heavy and then spot 50 sacks equant at 3500'.
had to total depth micros in any no fill hele to 5000 fill hele to 3500 fill hele to 3500	DETAILS OF WORK to objective sends; show sizes, weights, and lengths of proposed easings; indicate mudding jobs, our ing points, and all other important proposed work) the f 5919. No call or gas in commercial quantities the Propose to plug to shandon as follows: of with heavy and then spot 50 sacks count at 5000'. If the heavy and then spot 50 sacks count at 1000'. If the heavy and then spot 50 sacks count at 1200'. If the heavy and then spot 50 sacks count at 1200'. If the heavy and then spot 50 sacks count at 1200'.
had to total depth micros in any son fill hade to 5000 fill hade to 5000 fill hade to 3500 fill hade to 13500 o the 6-5/5° cand Cinish filling had	DETAILS OF WORK to objective sends; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, our ing points, and all other important proposed work) the f 5919'. We call or gase in commercial quantities the Propose to plug to abandon as follows: O' with heavy and then spot 50 sacks count at 5000'. O' with heavy and then spot 50 sacks count at 1000'. O' with heavy and then spot 50 sacks count at 3500'. O' with heavy and then spot 50 sacks count at 1200'. O' with heavy and then spot 50 sacks count at 1350'. If this heavy and then spot 50 sacks count at 1350'. If this heavy and then spot 50 sacks count at 1350'. If this heavy and then spot 50 sacks count at 1350'. If this heavy and then run a 10-sack count one and
