

## OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

DUPLICATE

## MISCELLANEOUS REPORTS ON WELLS

Submit this report in duplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF SHOOTING OR CHEMICAL TREATMENT OF WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF CASING SHUT-OFF	X	REPORT ON DEEPENING WELL

Oil & Gas Inspector  
Title

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for transparency and accountability, particularly in financial matters. The text suggests that organizations should implement robust systems to track every detail, from small expenses to major investments.

2. The second section focuses on the role of technology in modern record-keeping. It highlights how digital tools can streamline the process, reduce errors, and provide real-time access to data. The author argues that embracing technology is not just a convenience but a necessity for staying competitive in today's fast-paced environment.

3. The third part of the document addresses the challenges associated with data management. It notes that as the volume of data grows, the risk of information overload increases. To mitigate this, the text recommends regular audits and the use of data analytics to identify trends and anomalies. It also stresses the importance of data security and privacy, suggesting that organizations should adhere to strict protocols to protect sensitive information.

4. The fourth section discusses the human element of record-keeping. It acknowledges that while technology is powerful, it cannot replace the judgment and oversight of trained professionals. The text encourages organizations to invest in training and development, ensuring that staff are equipped with the skills needed to manage records effectively. It also emphasizes the need for clear communication and collaboration between different departments to ensure consistency in record-keeping practices.

5. The final part of the document provides a summary of the key points discussed. It reiterates that successful record-keeping is a combination of technology, process, and people. The author concludes by stating that organizations that prioritize these elements will be better positioned to achieve their goals and maintain a high level of operational efficiency.
