13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

JHHC requests TA status for the subject well. This is a NMFU Lease with the Hendrix group owning 25 percent. Conoco had proposed to P&A this well, while the Hendrix group opposed plugging. Conoco and partners assigned the well bore to the Hendrix group. Hendrix group plans to propose a Jalmat recompletion. Since this lease has multiple working interest owners, it will take considerable time to get the Jalmat work-over approved or interest assigned to Hendrix. Plugging may prevent future revenues to the BLM. The well poses no enviromental problems.
