Re: Wm. B. Paddock Bates #1

Gentlemen:

Reference is made to Form C-110 which was received in this office on January 19th, explaining that the Wm. B. Paddock Bates #1 was being operated by Haynes and V. T. Drilling Company. This form will be held without approval until some action is taken by Mr. Paddock or Western Natural Gas Company, owner of the gas rights, in response to our letter of January 5th. Until such time the well must remain shut in and no Form C-110 will be needed.

Yours very truly,

OIL CONSERVATION COMMISSION
